ABOUT ME

Passionate BCA student and Full Stack Web Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, Tailwind CSS, React.js, Node.js, Express.js and MongoDB. Experienced in developing modern user interfaces, integrating REST APIs and building full-stack applications using the MERN stack. Continuously improving through real-world projects and practical development experience.

EDUCATION

- **Sahyog College, Thane** 2024–2027
• *Bachelor of Computer Applications (BCA)*

PROJECTS

- **Netflix Clone | React.js | Live Demo**
 - Built a responsive Netflix-inspired web application using React.js with reusable components and modern UI design.
 - Implemented dynamic content rendering and responsive layouts for an improved user experience across devices.
- **MovieVerse React App | React.js, REST API | Live Demo**
 - Developed a movie discovery application using React.js and REST APIs to fetch and display dynamic movie data.
 - Implemented search functionality, dynamic movie information and reusable React components.
- **News 24/7 React App | React.js, REST API | Live Demo**
 - Built a responsive news application using React.js and REST APIs for displaying category-wise news updates.
 - Implemented reusable components, API integration and responsive layouts for a smooth browsing experience.
- **Full Stack MERN E-Commerce | MongoDB, Express.js, React.js, Node.js | Live Demo**
 - Developed a full-stack e-commerce application using the MERN stack with responsive frontend and RESTful backend APIs.
 - Implemented product management, user authentication, shopping cart functionality and database integration using MongoDB.
 - Built and deployed the application using Vercel/Render-based deployment workflow and Git/GitHub.
- **Urban Forks | HTML, Tailwind CSS, JavaScript | Live Demo**
 - Developed a modern and responsive restaurant website with menu, reservation and contact sections.
 - Used Tailwind CSS and JavaScript to create a clean, responsive and user-friendly interface.
